

FIRST Robotics Competition (FRC)

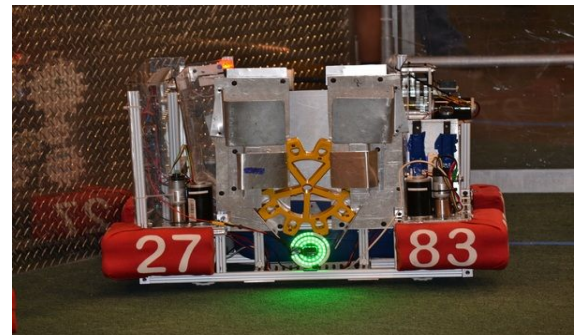

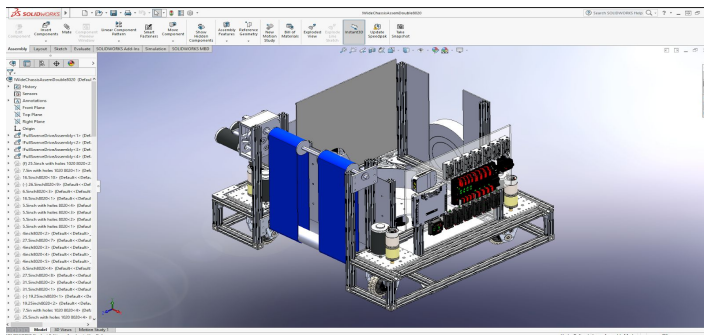

Engineers of Tomorrow Open House.

June 10th, 2017 from 11 AM - 3 PM at Cherry House Furniture. Our shop is behind the customer pickup building. Address: 2419 S. Hwy. 53, La Grange, KY 40031

What is Engineers of Tomorrow? Why should I join?

- Engineers of Tomorrow or EOT for short is a robotics team composed of students from 12 different high schools that compete at the regional and national level. FRC teams spend **6 weeks** building their robot for competition, and we're not talking about small robots you'd find on a table. These are 120 lb aluminum robots built, programmed and designed by high school students.
- If you have an interest in making things, coding in Java, learning how to use CAD software or engineering in general, this is the place for you. Our team allows you to experience engineering concepts first hand, and have fun while doing it.
- If that wasn't enough, We also are proud to have multiple award winning and finalist robots, along with an award winning safety program. We have sponsorships which include Ford, UPS, Siemens and are respected by them.

Robots not your thing?

- **WE NEED CREATIVE PEOPLE!!** Photography, Videography, Graphics and Web design, Outreach, Designing our Competition Displays, Team Spirit, Mascot, Public Relations, Business and Finance. These are all essential roles to our team as well as the robot. If you are interested, please come and check it out!
